Huge response to Ryomaden

In late 2009 Lisa was invited to contribute her vocals to the title track for *Ryomaden*, a Japanese TV series by national broadcaster NHK that debuted in January 2010.

Ryomaden marks the first time a foreign vocalist has been used for a TV series with NHK and Lisa has received much acclaim for her contribution to the opening theme composed by Naoki Sato.

The Official Soundtrack to *Ryomaden* which includes the title track sung by Lisa can be purchased online from [CD Japan](#).

The People of Burma

Lisa has contributed her music to a short film aimed at drawing attention to the plight of the Burmese people.

The film is courtesy of the wonderful people behind Partners Relief and Development.
